

What is screening?

Screening is a national health programme used to identify early cancer so that early treatment can be offered:

- it is free;
- it is easy;
- it is painless;
- you can have it done closer to your home;
- your appointment is fixed in a personal invitation letter;
- it doesn't require a doctor's concept paper;
- your privacy is guaranteed.

Do the Screening Protect your health

It is a simple, free, quick and painless test.
This test consists of carrying out a simple examination every 2 years to search for hidden (not visible) blood in the stool.
If you are between 50 years old and 69 years old you will receive an appointment by personal letter in the letter box to collect the stool sample.
You can change your appointment at any time by contacting the Centro Screening.
If you do not receive the invitation letter, please contact the Centro Screening.
The result of the screening will be sent to your personal letter box.
If other tests are required, we will contact you and schedule further examination.

(TEST TO SEARCH FOR NOT VISIBLE BLOOD IN THE STOOL)

Bowel screening (rectal colon)

It is a simple, free, quick and painless test.
The cervical screening test is done to prevent or find cancer at an early stage.
The PAP TEST is done on women aged 25 - 29 every 3 years while the HPV TEST is done on women aged 30 - 64 every five years.
You will receive an appointment by personal letter in the letter box. The test is usually done at a Consultorio Familiar (Planned Parenthood Health Service).
You can change your appointment at any time by contacting the Centro Screening.
If you do not receive the invitation letter, please contact the Centro Screening.
The result of the screening will be sent to you by your personal letter box.
If other tests are required, we will contact you and schedule further examination.

Cervical screening (PAP-TEST/HPV)

It is a simple, free, quick and painless test.
The breast screening is done by an X-ray test called a mammogram to check that your breast is normal.
If you are between 45 years old and 49 years old you will do a mammogram every year; if you are between 50 years old and 74 years old you will do a mammogram every 2 years. If you are between 45 and 74 years old you will receive an appointment at your nearest health service by personal letter in the letter box.
You can change your appointment at any time by contacting the Centro Screening.
If you do not receive the invitation letter, please contact the Centro Screening.
The result of the screening will be sent to you by your personal letter box.
If other tests are required, we will contact you and schedule further examination.
